In 2020, the Antibes Côte d'Azur Rally will once more be the 3<sup>rd</sup> event of the French Rally Championship, and will write the 4<sup>th</sup> event of the French Rally Championship VHC for historic cars. These 2 events will also count for the International Series of the European Rally Tour.

This is such good news for our Association which is recognized for its professionalism though all Motor sports world.

Our will to always push optimal organization to a full quality rally in the proper respect of all security rules have influenced our Federation to confirm our position within the National Championship and we would like to thank them for this.

The City of Antibes, always very attached to this event as well as the Department of the Alpes-Maritimes and the Provence Alpes Côte d'Azur Region, which continue to support us, are delighted. This positive point reinforces our usual partners and competitors to recognize that the media coverage in 2019 still in progress since the involvement of "Canal + Sport" in the French Rally Championship alongside the FFSA.

We'll have the pleasure to welcome the Clio Trophy France, organized by Renault Sport with the new Clio Rally. This promoting formula allows our most talented pilots to be brought up to the top list and reach a high motor sport level.

Once again this year, we are delighted to renew the organization of the Regularity Rally (VHRS). Please note the creation of the 1<sup>st</sup> Région Sud – Alternative Energy. These two Rallies will take departure on Saturday for 2 days of running. We will propose Hotel and festivities formulas for these two events.

We like to remind that all the French Champions, all the mighty names of the French and Foreigner's Rally World as well as our bests committee drivers have come through the Antibes Côte d'Azur Rally.

The adventure continues, we count on you to write the following with the same enthusiasm. Thank you all and Happy Holidays at the end of the year.
